

Site investigations and early works at Victoria Park

Artist Impression. Early design concept only

The Games Independent Infrastructure and Coordination Authority (GIICA) is laying the foundations for the world's biggest event in 2032.

We are responsible for delivering 17 new and upgraded venues across Queensland for the Brisbane 2032 Olympic and Paralympic Games, jointly funded by the Australian and Queensland Governments.

Victoria Park has been identified as the future home of the new Brisbane Stadium and National Aquatic Centre. These venues will bring long-lasting benefits to Queensland beyond the Games.

The new Brisbane Stadium will become the city's home of major events. The Stadium will attract global sporting events and blockbuster concerts and be a fitting home ground for local superstars AFL's Brisbane Lions and cricket's Brisbane Heat and Queensland Bulls. Nearby the National Aquatic Centre will become the city's heart of aquatic sports.

Site investigations

Site investigations are needed to better understand the ground conditions at Victoria Park. These investigations will occur at various locations across both the Herston and Spring Hill sides of the park.

What to expect from 1 June

From Monday 1 June 2026, the Herston side of Victoria Park will be fenced and closed to the public.

Areas of the park including the Urban Pump Track, York's Hollow, the park fronting Victoria Park Road in Kelvin Grove and the Spring Hill side of the park will remain open to the public.

See the map overleaf.

The following activities will occur from 1 June:

- Installation of fencing around the Herston side of Victoria Park including closing access from the Herston and QUT/Kelvin Grove busway stations
- Gilchrist Avenue will be closed to public vehicles including all parking. Construction access only
- Minor relocation of Northern Brisbane Bikeway (shared pathway) to Gilchrist Avenue
- Traffic control, line marking and signage installed to assist motorists and active transport users
- Heavy vehicle movements for the delivery of plant and materials via Gilchrist Avenue
- Victoria Park Golf Complex and carpark closed to the public
- Ground surveying.

Work hours

Construction activities will be undertaken within standard works hours of 6.30am and 6.30pm, Monday to Saturday. Additional notification will be provided ahead of any work outside these hours including weekend or night work.

All work is subject to relevant approvals and weather and construction conditions.

GIICA is committed to minimising the impact of construction activities and noise on the surrounding community as far as possible.
