

Initial works at Victoria Park

Artist Impression. Early design concept only

Victoria Park is undergoing a period of renewal as the future home of the new Brisbane Stadium and National Aquatic Centre.

Victoria Park access update

On 1 June 2026, parts of the Herston side of Victoria Park were closed to the public to allow GIICA to commence site establishment. These works are continuing ahead of early works beginning in the coming months.

In the coming weeks there will be additional changes to fencing and further areas closed to the public.

These changes are being made to ensure the safety of the community, residents and workers.

What is changing

Community access to the Herston side of Victoria Park will be limited to the shared user path through Gilchrist Avenue, and over the land bridge across the Inner City Bypass and rail corridor. *See map overleaf.*

What else is happening

The following activities are planned in the coming weeks and months:

- continued installation of fencing
- traffic control to assist motorists and active transport users
- heavy vehicle movements for the delivery of plant and materials via Gilchrist Avenue and Herston Road

- ground survey investigations and mark-outs
- utilities services identification
- historical and cultural heritage surveying
- vegetation trimming and removal (including the use of wildlife spotters)
- minor demolition works and repurposing buildings to fit-out as site facilities
- removal of redundant services and infrastructure
- site office establishment.

Work hours

Construction activities are planned during standard work hours of 6:30am and 6:30pm, Monday to Saturday.

As part of ongoing works, including over-sized deliveries and traffic changes, some night works will occur from 6:30pm to 6:30am Monday to Saturday.

All work is subject to relevant approvals, construction conditions and weather.

GIICA is committed to minimising the impact of construction activities and noise on the surrounding community where possible.
