

Site investigations

Moreton Bay Indoor Sports Centre, Moreton Bay Central

The Games Independent Infrastructure and Coordination Authority (GIICA) is laying the foundations for the world's biggest event in 2032.

We are responsible for delivering the 17 new and upgraded venues across Queensland jointly funded by the Australian and Queensland Governments ahead of the Brisbane 2032 Olympic and Paralympic Games.

The new Moreton Bay Indoor Sports Centre will deliver a twelve-court venue across two halls, bringing the Games to Moreton Bay and creating a legacy for community sporting participation long beyond 2032.

Forming the centrepiece of Moreton Bay Central Precinct, the new indoor sports centre will provide multi-purpose courts capable of hosting a variety of indoor sports and community events.

The Moreton Bay Indoor Sports Centre will be operated by the City of Moreton Bay in legacy mode and will help to address a shortage of indoor sports courts in a growing region.

Site investigations

Site investigations are needed to better understand ground conditions at the site of the Moreton Bay Indoor Sports Centre.

Investigations will include borehole drilling and other ground and cultural surveys to provide insights into sediment and ground conditions.

What to expect

Site investigations are expected to commence in November and take several weeks to complete.

Works will take place within the footprint of the new Moreton Bay Indoor Sports Centre which forms part of the Moreton Bay Central Precinct at Petrie.

See map overleaf for site location.

The works and activity will include:

- Service location testing
- Track-mounted borehole drilling
- Ground and cultural survey activities
- Some additional heavy vehicle movements on Moreton Parade.

Work hours

Construction activities will be undertaken within standard works hours of 6.30am and 6.30pm, Monday to Friday. Additional notification will be provided ahead of any work outside these hours including weekend or night work.

All work is subject to relevant approvals, weather and construction conditions.

GIICA is committed to minimising the impact of construction activities and noise on the surrounding community as far as possible.
